Self-Portrait Puppet

Activity 1 · guide p. 51 · 10–12 min · "God made me — and here I am!"

What the children do

1. **Look in the mirror.** "What colour is your hair? Your eyes?"
2. **Hair:** glue yarn along the top of the flap. Short pieces (10 cm) for short hair, long pieces (25 cm) for long hair or braids.
3. **Eyes:** glue on two buttons — a dot of glue, press, count to 5.
4. **Face:** draw the nose, eyebrows and cheeks with crayons. The **mouth goes under the flap**, so it "talks" when the hand moves.
5. **Clothes:** draw today's shirt on the bag's body.
6. Hand in the bag, fingers in the flap — and the puppet says, **"Hi! I'm ___ and God made me!"**

> **The guide says:** children may not make a puppet with their own hair and eye colour — **that's okay**. Let them have fun and make it any way they want.

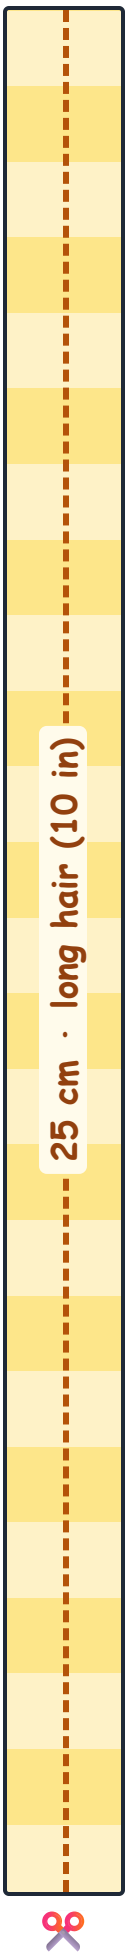

Prep before class

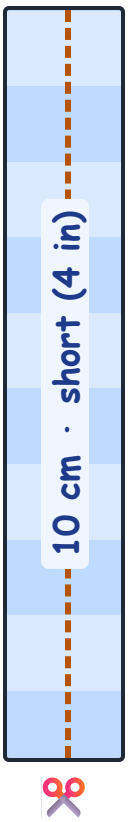

1. **Make one sample puppet** to show them (the guide asks for this) — use your own hair colour!
2. **Buy yarn in the children's hair colours**: black, dark brown, light brown, blonde, red/ginger. Curly-look yarn is great for curly hair.
3. **Cut the yarn** with the strips on page 2: about 10 short (10 cm / 4 in) and 6 long (25 cm / 10 in) per child. Keep each colour in its own cup or zip bag.
4. Buttons sorted into cups: blue, brown, green, hazel, black.
5. Glue in shallow lids (thick white glue or tacky glue); glue sticks don't hold yarn.
6. Write each child's name on the back of a **paper lunch bag**.

On the table

- Paper lunch bags — 1 each + spares
- Yarn pieces in cups by colour
- Buttons (big ones — 2 cm)
- Glue in lids + cotton swabs to spread it
- Crayons or markers
- A hand mirror or two
- Optional face cut-outs (page 2)

> **Watch out for:** buttons are a **choking hazard** — count them out, keep the cup with an adult, and none in mouths. Wet glue = lay puppets flat to dry, flap open, until the end of the meeting.

Yarn Cutting Guide

Lay the yarn along a strip from top to bottom and snip at the end. Wrap yarn round the strip several times, then cut once across the end to make lots of pieces at once. Print at **Scale 100%, Margins None** — the stripes are 1 cm each, so you can check with a ruler.

Optional face cut-outs — for children who'd rather glue than draw. Cut along the dashed boxes; colour the cheeks/ears to match.
